Subject: Graduate Fellowships You Need to Know

Dear Graduate Students,

The key to graduate fellowships is finding one that fits you and your work. We have a lot of advice on our website about how to search for fellowships, but the list below is a good place to begin. The list includes several awards for those of you who plan to complete your master’s degree in the spring. We also worked to include many opportunities for international students. Please see below!

**GEM Consortium Fellowships in Engineering and Science**
The mission of The National GEM Consortium is to enhance the value of the nation’s human capital by increasing the participation of underrepresented groups (African Americans, American Indians, and Hispanic Americans) at the master’s and doctoral levels in engineering and science. GEM provides three Fellowship Programs. 1. MS Engineering Fellowship Program: The objective of this program is to promote the benefits of a masters degree within industry. 2. Ph.D. Engineering Fellowship: The objective of this program is to offer doctoral fellowships to underrepresented minority students who have either completed, are currently enrolled in a master’s in engineering program, or received admittance into a PhD program directly from a bachelor’s degree program. 3. Ph.D. Science Fellowship: The goal of this program is to increase the number of minority students who pursue doctoral degrees in the natural science disciplines.

- **Deadline:** October 1 (Part 1, early consideration) and November 15 (Part 2)
