**General Funding Opportunities**

**American College of Sports Medicine (ACSM) Foundation Dr. Raymond A. Weiss Research Endowment**

Wishing to advance research into the health benefits - physical, mental and emotional - of physical activity and sports, the Dr. Raymond A. Weiss Research Endowment has been established for ACSM students studying in this field. One project will be funded for applied rather than for basic research, with the intent of applying the results to programs involving physical activity and sports. The psychological and emotional benefits of physical activity are of particular importance to the benefactors of this endowment, the late Drs. Raymond and Rosalee Weiss, and proposals addressing those issues will be given priority.

- **Deadline:** January 14, 2022
- **Citizenship:** Unrestricted

**Boren Fellowship**

Boren Fellowships, an initiative of the National Security Education Program, provide unique funding opportunities for U.S. graduate students to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. Boren Fellows represent a vital pool of highly motivated individuals who wish to work in the federal national security arena. In exchange for funding, Boren Fellows commit to working in the federal government for at least one year after graduation.

Congressional Hunger Center Emerson National Fellows Program
Congressional Hunger Center (CHC) is invested in developing a movement of anti-hunger leaders who are creating the political will necessary to end hunger. During the 11-month fellowship, Bill Emerson National Hunger Fellows develop a deep understanding of effective solutions to hunger and poverty, and their own roles in achieving Zero Hunger in the United States. Following orientation and field training in Washington, D.C., Emerson Fellows spend five months with community-based organizations throughout the United States. In mid-February fellows return to Washington for a second placement with organizations and government agencies focused on national anti-hunger and anti-poverty policy. Throughout the fellowship, fellows hone essential skills and form a strong professional cohort through in-person trainings, retreats, and professional development sessions.

- **Deadline:** January 14, 2022
- **Citizenship:** U.S. citizenship

Davis-Putter Scholarship for Social/Economic Justice and Activism
The Davis-Putter Scholarship Fund aids people active in movements for social and economic justice. These need-based scholarships are awarded to students who are able to do academic work at the college or university level and who are active in the progressive movement. Early recipients worked for civil rights, against McCarthyism and for peace in Vietnam. Recent grantees have been active in the struggle against racism, sexism, homophobia, and other forms of oppression; building the movement for economic justice; and creating peace through international anti-imperialist solidarity. Applicants must have participated in activities in the US, and there is a strong preference for applicants who plan on working in this country.

Federal Employee Education & Assistance Fund
Since 1986, FEEA has given almost 11,000 merit-based scholarships to federal public servants, their spouses, children, and grandchildren. An additional nearly 200 scholarships to surviving children whose federal employee parents died or were severely injured in the line of duty during terrorist attacks, such as those on the Alfred P. Murrah Federal Building in Oklahoma City, the Pentagon on 9-11, and the US Embassies and Consulates in Kenya, Tanzania, and Libya. Collectively, our scholarship program to date totals over $14 million. FEEA champions the pursuit of higher education and each year supports over 200 students with merit-based scholarships.

Ford Foundation Dissertation Fellowships
The dissertation fellowships provide one year of support for individuals working to complete a dissertation leading to a Doctor of Philosophy (Ph.D.) or Doctor of Science
(Sc.D.) degree. The Ford Foundation Dissertation Fellowship is intended to support the final year of writing and defense of the dissertation. Dissertation fellowships will be awarded in a national competition administered by the National Academies of Sciences, Engineering, and Medicine on behalf of the Ford Foundation. The awards will be made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level in the U.S., show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students.

**Live Your Dream Climbing Grants from American Alpine Club**

The Live Your Dream grant, powered by The North Face, was founded on the belief that our definitions of exploration and our goals are unique to each of us. Meaningful exploration isn’t limited to the highest peaks in the farthest reaches of the world. Your local gym, crag, and backyard mountains are equally important resources to help stoke inspiration for adventure. When we search out new experiences, overcome obstacles, and connect with each other, through exploration, we change ourselves. This grant supports the every-day adventurers who harness this mindset for their own exploration. We are looking for individuals who have a personally ambitious climbing goal, a desire to take their abilities to the next level, and want to share the power of exploration with their communities. Open to all ages, all experience levels, and all climbing disciplines—from bouldering to big walls, alpinism to ski mountaineering, peak bagging to bolt clipping, and everything in between—we encourage you to dream big, let curiosity lead you, and apply.

- **Deadline:** January 15 - February 28

**Norway-American Association Scholarships**

The purpose of the scholarships is to provide financial support for Americans to study in Norway. By supporting post-graduate study or research in areas of mutual importance to Norway and the United States we hope to bring the two countries closer. By awarding scholarships to American students or researchers, knowledge and understanding will increase, and it will strengthen the ties of friendship between the two countries.
NSF Law & Sciences Doctoral Dissertation Research Improvement Grants
The Law & Science Program considers proposals that address social scientific studies of law and law-like systems of rules, as well as studies of how science and technology are applied in legal contexts. The Program is inherently interdisciplinary and multimethodological. Successful proposals describe research that advances scientific theory and understanding of the connections between human behavior and law, legal institutions, or legal processes; or the interactions of law and basic sciences, including biology, computer and information sciences, STEM education, engineering, geosciences, and math and physical sciences. Scientific studies of law often approach law as dynamic, interacting with multiple arenas, and with the participation of multiple actors. Fields of study include many disciplines.

P.E.O International Women's Peace Scholarship
The International Peace Scholarship Fund, established in 1949, is a program which provides scholarships for selected women from other countries for graduate study in the United States and Canada. Members of P.E.O. believe that education is fundamental to world peace and understanding. The scholarship is based upon demonstrated need; however, the award is not intended to cover all academic or personal expenses. At the time of application, the applicant is required to indicate additional financial resources adequate to meet her estimated expenses. Examples of additional resources are personal and family funds, tuition waivers, work scholarships, teaching assistantships, study grants and other scholarships. The maximum amount awarded to a student is $12,500. Lesser amounts may be awarded according to individual needs.

- **Deadline:** December 15, 2021 (Eligibility Forms due); March 1, 2022 (Application Materials due)
- **Citizenship:** Must be a citizen or permanent resident from a country other than the U.S and Canada.

Point Foundation Scholarships for LGBTQ Students
Point Foundation empowers promising LGBTQ students to achieve their full academic and leadership potential – despite the obstacles often put before them – to make a significant impact on society. By identifying and supporting these scholars, Point hopes to provide a greater level of acceptance and respect within future generations for all persons, regardless of sexual orientation, gender expression, or gender identity. Each
person who applies for a Point Scholarship is evaluated on the totality of their situation. Academic achievement, personal merit, leadership, involvement in the LGBTQ community, professional experiences, financial need, marginalization, personal and future goals are all taken into consideration. Point Scholarships are awarded on a "last provider" basis. Point fills in the gaps and provides funds not provided by other scholarships, grants, loans, work/study programs, etc.

U.S. Geological Survey Science to Action Fellowship

The Science to Action Fellowship program supports graduate students in developing a product that puts science into action, directly applying scientific research related to climate change impacts on fish, wildlife, or ecosystems to decision making about natural resources. During the fellowship year and beyond, fellows benefit from collaborations with university and USGS mentors, from interactions with other colleagues and partners of USGS, and from exposure to high priority, real-world challenges in the natural resources policy arena. Up to two fellows will be selected, annually, to receive a financial award of $10,000 each. Each Fellow will work closely with his/her university mentor (typically, the applicant’s graduate program advisor) and a mentor from NCASC (identified by the applicant during the application process). The fellowship experience will last one year (start date is flexible within funded year, starting April at the earliest). During this time, the Fellow will be expected to work at NCASC or a CASC with a CASC mentor for two months (typically summer; specific dates are flexible; virtual options considered as appropriate) but may remain at his/her host institution for the rest of the term.

**Art Conservation Fellowships at the Samuel H. Kress Foundation**

The purpose of the Kress Conservation Fellowship program is to provide a wide range of post-graduate fellowship opportunities that will help develop the skills of emerging conservators. At the crossroads of science and art, the fields of conservation and technical art history demand a complex knowledge of chemistry and materials and an extraordinary sensitivity to artistic intent, as well as physical dexterity, patience, and powers of concentration. Initial training, typically at one of a handful of institutions in North America, provides basic qualifications that must be supplemented with an extended period of specialized concentration on paintings, objects, textiles, antiquities, ethnic materials, photographs, prints and drawings, books and manuscripts, furniture, etc. Within a supervised environment, the young conservator develops the specific skills, the hands-on experience, and the confidence on which to base a future career.

Zuckerman STEM Leadership Program Israeli Postdoctoral Scholars

The Zuckerman Israeli Postdoctoral Scholars Program provides additional support to Israeli PhD graduates who have been accepted to a postdoctoral program with a stipend at an American university. Preferably, candidates should apply to a university that provides more specialized training than they would find in Israel. Zuckerman Israeli postdoctoral scholars enjoy programming and activities specially organized for them by the Zuckerman STEM Leadership Program. Scholars are expected to return to the home campuses from which they earned their doctorates, and to visit other universities, where they will give talks and be interviewed by faculty and PhD students. They should share insights about their research and about the experience of collaborating with scientists in the United States.
