Funding for grad students who live with HIV, research fisheries, study global law, and more

GradFunding Newsletter – Winter Break Edition

Dear Graduate Students,

We hope that this Winter Break edition of the newsletter, in lieu of a January newsletter, allows you to find funding opportunities at your convenience over the winter break. Congratulations on completing the semester!

EPA National Student Services Contract (NSSC)
Oak Ridge Associated Universities (ORAU) provides innovative scientific and technical solutions to advance national priorities in science, education, security and health. Through specialized teams of experts, unique laboratory capabilities and access to a consortium of more than 100 major Ph.D.-granting institutions, ORAU works with federal, state, local and commercial customers to advance national priorities and serve the public interest. ORAU hires and manages contractors on behalf of the U.S. Environmental Protection Agency under the National Student Services Contract (NSSC). NSSC contractors become temporary employees of ORAU working at Environmental Protection Agency’s (EPA) Office of Research and Development (ORD) for the duration of assignment, up to five years. Our recruiters are actively reviewing applications.

Property and Environmental Research Center Fellowships in Montana
PERC Graduate Fellowships offer the ideal opportunity for graduate and law students to research issues related to natural resources, innovation, property rights, and the environment. Graduate fellows spend three months at PERC over the summer in Bozeman, Montana, researching and writing a paper under the mentorship of a PERC Senior Fellow. Graduate Fellows have the opportunity to work in depth on a thesis or dissertation and fast track their research. This is a chance to receive feedback from experts in fields including economics, law, and environmental science. Graduate Fellows are expected to interact with other PERC scholars and fellows while in residence, and it is intended that the fellowship period be thought of as an opportunity to either establish or strengthen a continuing relationship with PERC. Office space is provided in a congenial, stimulating work environment in a locale of unparalleled natural beauty.
- **Deadline:** TBA, information will be announced early 2022
- **Citizenship:** Unspecified

### Funding Opportunities in the Arts, Humanities, and Social Sciences

**Arthur and Elizabeth Schlesinger Library on the History of Women in America Dissertation Grants – Radcliffe Institute for Advanced Study**
The Arthur and Elizabeth Schlesinger Library on the History of Women in America offers a variety of research grants to support new scholarship on women, gender, and sexuality. Applications will be evaluated on the significance of the research topic and its creativity in drawing on the library’s holdings. The agency invites predoctoral scholars whose dissertation research requires use of the library’s collections to apply for research support. Grants of up to $3,000 will be given on a competitive basis. Applicants must have advanced to candidacy in a doctoral program in a relevant field and have an approved dissertation topic.

- **Citizenship**: Unspecified, ask library

Creative Capital Award
The Creative Capital Award is designed to assist artists who are working at the vanguard of their fields, or who have ideas to propel their artistic practices forward. Artists need partners to make ambitious work, and Creative Capital set out to be just that. The application is a way to help us determine which artists are ready to take the journey. To help us choose these artists, we work with hundreds of outside evaluators in all disciplines of the arts, representing different backgrounds and geographic locations.
- **Citizenship:** U.S. citizen, national, or permanent resident
- **Deadline:** The application opens on an annual basis every February

Gerald R. Ford Presidential Library & Museum Travel Grants
The Gerald R. Ford Presidential Foundation awards grants of up to $2,200 each in support of research in the holdings of the Gerald R. Ford Library. A grant defrays travel and living expenses of a research trip to the Ford Library. Overseas applicants are welcome to apply, but they will be responsible for the costs of travel between their home
country and North America. The grants only cover travel within North America. Library collections focus on Federal policies, U.S. foreign relations, and national politics in the 1960s and 1970s. There are earlier and later materials depending upon your topic.

**Hodges Foundation for Philosophical Orientation Doctoral Dissertation Fellowships**

The Hodges Doctoral Dissertation Fellowships are designed to encourage and support original and significant studies exploring the complexities of human orientation. Orientation precedes everything else, all perceiving, thinking, and acting, and its conditions and structures may thus be explored from various disciplinary viewpoints and methodological approaches. The Hodges Foundation for Philosophical Orientation (HFPO) primarily supports innovative dissertations in the wider field of philosophical scholarship, but also outstanding projects in any academic field (in the humanities, the social sciences, as well as the natural sciences, including biology, psychology, sociology, or astrophysics) if they make significant contributions to the philosophy of orientation. Projects may involve, but are not limited to, philosophical reorientations in history and today; the structures of human orientation in space and time; memory studies and brain research; the economic, political, communicative, religious, or ethical dimensions of decision-making; global reorientations connected with the Anthropocene and the digital transformations of the world. The HFPO is especially committed to supporting courageous reorientations in philosophy and beyond.

**Institute for Global Law and Policy Doctoral and Postdoctoral Awards**

The Institute welcomes all interested doctoral and post-doctoral scholars who are currently pursuing research in the areas of global law, economic policy, and social justice to apply for our residential Fellowships. Applicants considered for Fellowships are those whose work is challenging, original and focuses on progressive and alternative ideas within international law. Often, work of this nature is not supported by mainstream institutional resources and the Institute for Global Law and Policy (IGLP) strives to give opportunities for diverse ideas to flourish.

**National Park Service Art in the Parks Artist-in-Residence**

There are programs for visual artists, writers, musicians, and other creative media. Programs vary, but residencies are typically 2 to 4 weeks in length and most include lodging. Often artists are invited to participate in park programs by sharing their art with the public. Each park has its own application process and timeline, so please visit a given park's website (linked in the map displayed on the website below) for specifics.
NYU Journalism Matthew Power Literary Reporting Award
The Matthew Power Literary Reporting Award is a grant of $12,500 to support the work of a promising early-career nonfiction writer on a story that uncovers truths about the human condition. The award proceeds from the recognition that many important stories need to be reported from afar, and that publications do not always have the resources to send a writer where the story is. The money need not be used exclusively for travel, but we expect that most successful applications will include such expenses.

- **Citizenship:** Unrestricted

Society for the Advancement of Behavior Analysis (SABA) Sidney W. and Janet R. Bijou Grant
The Society for the Advancement of Behavior Analysis (SABA) welcomes proposals for research in child development from a behavior analytic perspective. This grant will be provided to support doctoral student research designed to incorporate behavioral principles to advance our understanding of human development. Developmental concepts could include chronological and developmental age, neurobiological and genetic factors associated with development, or the impact of developmental trajectories on adult behavior. While intervention research could be appropriate, the primary research questions (independent variables) must be related to developmental and behavior analytic principles. Examples are changes in reinforcer preference with age, effectiveness of verbal behavior interventions in children of differing developmental ages, the development of second languages or bilingualism, equivalence relations, delay discounting, neurobiological correlates or interventions, the role of epigenetic influences, or environment–gene–behavior interactions.

Society for the Study of Social Problems (SSSP) Racial/Ethnic Minority Graduate Fellowship
The Society for the Study of Social Problems (SSSP), in keeping with its philosophy of active engagement with social problems, participation in social problem solutions, and advancement of knowledge through study, service and critical analysis, established the Racial/Ethnic Minority Graduate Scholarship at its annual meeting in August 1993. At the 2017 Annual Meeting, the Board of Directors voted to change the scholarship to a fellowship. The purpose of the fellowship is: To identify and support developing minority scholars who exemplify and give fresh voice to the SSSP history and commitment to scholar activism; To give renewed energy and wider lenses to diversity in scholarship; To increase the pool of minority social and behavioral scientists; and To
establish a formal commitment to diversity through support of two minority doctoral students in the social and/or behavioral sciences inclusive of course work or dissertation research support who demonstrates a commitment, through his, her, or their scholarly examination, of any aspect of inequality, injustice, and oppression

**Truman Library Institute Dissertation Year Fellowships**

Dissertation Year Fellowships are intended to encourage historical scholarship of the public career of Harry S. Truman or the Truman era. This fellowship is intended to free a doctoral student from teaching or other employment to facilitate completion of his or her dissertation. Preference will be given to projects based on extensive research at the Truman Library, but since the research is presumed to be complete, there is no requirement of residence at the Library during the fellowship year.

**Funding Opportunities in Science and Engineering**

**American Fisheries Society - Steven Berkeley Marine Conservation Fellowship**

This fellowship was created by American Fisheries Society (AFS) in 2007 to honor the memory of Steven Berkeley, a dedicated fisheries scientist with a passionate interest in integrating the fields of marine ecology, conservation biology, and fisheries science to improve fisheries management. Berkeley was a long-time member of AFS and a member of the first Board of Directors of the Fisheries Conservation Foundation. The fellowship comprises a competitively based $10,000 award to a graduate student actively engaged in thesis research relevant to marine conservation. Research topics may address any aspect of conservation; a focus on fisheries issues is not required.

**American Institute of Aeronautics and Astronautics Graduate Scholarships**

To help support promising future aerospace professionals, the American Institute of Aeronautics and Astronautics (AIAA) Foundation annually awards financial aid to undergraduate and graduate students in science or engineering programs related to aerospace. Our goal is to help attract top science and engineering students to aerospace field, to provide high-visibility recognition of these students and their work, to furnish
financial assistance to aerospace students, and to assure the availability of the talented professionals the aerospace industry will need in the years ahead. Through its annual graduate scholarship program, the AIAA Foundation presents awards to graduate students doing excellent research in the air and space sciences.

**American Society of Mechanical Engineers (ASME) Lakshmi Singh Early Career Leadership Award**

The American Society of Mechanical Engineers, under its Petroleum Division, invites applications for the Lakshmi Singh early-career leadership award. This recognizes early-career women engineers who have demonstrated leadership in, commitment to and continued service with the society. Applicants must be women who are members of the society. They must have received their undergraduate degree in mechanical engineering no more than 15 years before the deadline date. Preference is given to international applicants and those of racial or ethnic minority descent.

Global Sustainable Electricity Partnership Scholarship
The Education for Sustainable Energy Development (ESED) scholarship program inspires the next generation of innovators and thinkers to create a sustainable future. Our scholars are exceptional students from developing countries studying in sustainable energy development. Today, the need for globally-oriented practitioners and researchers is growing rapidly. Our one-of-a-kind scholarship program fosters the next generation of energy, climate, and electricity sector specialists who will be prepared to tackle the challenges of the future.

- **Citizenship:** Applicants must be a citizen of a developing country/territory on the List of official development aid recipients identified by the Development Cooperation Directorate (DAC) of the Organisation for Economic Co-operation and Development (OECD).*

National Science Foundation Mathematical Sciences Graduate Internship
The National Science Foundation (NSF) Division of Mathematical Sciences (DMS) aims to provide opportunities to enrich the training of graduate students in the Mathematical Sciences through the provision of an NSF Mathematical Sciences Graduate Internship Program. This program will provide an opportunity for mathematical sciences doctoral students to participate in internships at federal national laboratories and research facilities. Participation in an internship will provide first-hand experience of the use of mathematics in a nonacademic setting. The internships are aimed at students who are interested in understanding the application of advanced mathematical and statistical techniques to "real world" problems, regardless of whether the student plans to pursue an academic or nonacademic career.

- **Deadline:** January 18, 2022
- **Citizens:** U.S. citizenship is not required for participation in the program. However, depending on the internship assignment, U.S. citizenship, or permanent residence may be required. For non-U.S. citizens, internships are contingent upon having a valid immigration status. ORISE will work with participants to determine eligibility.

U.S. Air Force Research Lab - Repperger Research Internship Program
This 10-week educational internship program posthumously honors Dr. Daniel W. Repperger, who mentored many young people during his 35-year research career with the Air Force Research Laboratory (AFRL), by providing research opportunities for students to participate in research projects at one of the Air Force facilities under the mentorship of an Air Force scientist. Each scientist has been hand selected to mentor, because of their technical knowledge, experience, and willingness to help science and engineering students enhance their learning through participation in an actual Air Force research project.

Postdoctoral Opportunities

Air Force Science & Technology Fellowship Program
The Air Force Science & Technology Fellowship Program offers nationally competitive fellowship awards to postdoctoral and senior scientists to perform collaborative research at U.S. Air Force research facilities across the country. Since 1966, the Air Force S&T Enterprise has hosted over 1,000 fellows under the NRC Research Associateship Programs and many of these researchers have gone on to successful careers in government laboratories. The Air Force Science & Technology Fellowship Program continues this tradition of providing high quality research opportunities with Air Force scientists and engineers at Air Force Research Laboratory, the Air Force Institute of Technology, and the U.S. Air Force Academy.

American Council of Learned Societies Leading Edge Fellows – Social Justice
The American Council of Learned Societies is pleased to announce the third competition of the Leading Edge Fellowship program, which demonstrates the potential of humanistic knowledge and methods to solve problems, build capacity, and advance justice and equity in society. Leading Edge Fellowships place recent humanities PhDs with nonprofit organizations committed to promoting social justice in their communities. Fellows lead substantive projects that draw on the skills and capacities honed in the course of earning the humanities PhD, including advanced communication, research, project management, and creative problem solving. This initiative is made possible through the support of The Andrew W. Mellon Foundation.

- **Deadline:** March 2022 (see website for updates)
- **Citizenship:** Must be authorized to work legally in the U.S.

Cardiovascular and Respiratory Physiology Postdoc
A Postdoctoral Research Associate I/II (depending on experience) in Cardiovascular and Respiratory physiology is available in the Department of Physiology at the University of Arizona, Tucson in the laboratory of Professor E. Fiona Bailey. The applicant will work as part of a team on a 5-year NIH/NIA funded Clinical Trial focused on a high intensity, low volume respiratory strength training protocol to mitigate key cardiovascular risk factors associated with obstructive sleep apnea (OSA) in adults 50+ years. Although the intervention holds great promise, the durability and precise nature of the (vascular) mechanisms underlying these improvements remain unclear. The position is available on a full-time basis for one year in the first instance, further extension is available based on performance.

- **Citizenship:** US permanent resident or citizen
- **Deadline:** open until filled

Damon Runyon Fellowship Award
The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention. Candidates must apply for the fellowship under the guidance of a Sponsor—a scientist (tenured, tenure-track or equivalent position) capable of providing mentorship to the Fellow. In addition to aiding in the planning, execution and supervision of the proposed research, the Sponsor’s role is to foster the development of the Fellow’s overall knowledge, technical and analytical skills, and capacity for scientific inquiry. The Sponsor is also expected to assist the Fellow in attaining his/her career goals.

- **Citizenship:** Unrestricted
- **Deadline:** March 15, 2022

De Duve Institute Post-Doctoral Program in Belgium
The de Duve Institute is on the list of institutions recognized by the Belgian government to be eligible for tax-exempt prizes and subsidies. The Institute awards 1-year fellowships, which are renewable once, to young scientists who in principle have not obtained their PhD degree at a Belgian University and who wish to carry out their postdoctoral research within one of our research groups. Candidates must hold a PhD or MD degree, and must be in a situation of “international mobility”, i.e. they should in principle not have resided or carried out their main activity (work, studies, etc.) in Belgium for more than 12 months in the 3-year period before submission of their application for a de Duve Institute fellowship.

- **Citizenship**: Unspecified
- **Deadline**: March 15, 2022

Institute Project on Decoloniality Postdoctoral Fellowships
Applications are invited for postdoctoral bursaries from candidates in any area of the Arts, Humanities and Social Sciences. We would particularly welcome applications linked to the themes of the new Institute Project on Decoloniality (IPD’24) taking place at IASH from 2021 to 2024. This project invites scholars from around the world to visit Edinburgh and conduct research on the theme of decoloniality, broadly understood. We and our partners warmly encourage applications exploring issues including but not limited to: decolonising the curriculum; anticolonial and decolonial theory; neocolonialism; intellectuals in and from the Global South; intersectionality and multiple inequalities; decolonising gender and sexuality; race and racialisation; de-centering Western feminist knowledge production; Scotland’s role in the British Empire; reparations; the University of Edinburgh’s colonial legacy and alumni roles in the slave trade; and the histories of Edinburgh graduates and staff of colour. It is important to note that we still welcome applications on all topics and in all areas of the arts, humanities and social sciences to continue IASH’s traditional interdisciplinary work across the 12 CAHSS schools, alongside IPD’24.

- **Citizenship**: Unrestricted

Intelligence Community Postdoctoral Research Fellowships
The Intelligence Community (IC) Postdoctoral Research Fellowship Program (IC Postdoc Program) was established in 2000 to support unclassified basic research in areas of interest to the IC. In collaboration with Research Advisors, Postdocs develop and submit technical research proposals that align with research opportunities proposed by the IC community. The research is conducted by the Postdocs while working in partnership with the Research Advisor, and collaborating with an advisor from the Intelligence Community (IC Advisor). Postdocs who have completed their Ph.D. within the past five years are invited to apply.

- **Citizenship**: U.S. citizen
- **Deadline**: February 28, 2021
L’Oréal USA for Women in Science Postdoctoral Fellowship
The For Women in Science program was created out of a simple belief: the world needs science, and science needs women because women in science have the power to change the world. The L’Oréal USA For Women in Science fellowship program awards five women postdoctoral scientists annually with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. Candidates must have completed their PhD and have started in their postdoctoral research position by the application deadline.
- **Citizenship:** U.S. citizen or permanent resident

National Academies Research Associateship Program
The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions. In these programs, prospective applicants select a research project or projects from among the large group of opportunities listed on this website. Prior to completing an application, prospective applicants should contact the proposed Research Adviser to assure that funding will be available if their application is recommended by NRC panels. Once mutual interest is established between a prospective applicant and a Research Adviser, an application is submitted through the NRC WebRap system.
- **Citizenship:** Varies by opportunity
- **Deadline:** February 1, May 1, August 1, November 1
