Survival Skills and Ethics (SLHS 649, Spring 2023)
This course is designed for graduate students and postdoctoral fellows. It provides information and experiences that will aid in successful "survival" during the graduate-student years and those following graduation. Topics include effective speaking and writing, grants-personship, mentoring, teaching, career options, among others. Discussion of ethical issues and resources is integrated across topics. Earn a Responsible Conduct in Research (RCR) certificate upon course completion. This course also fulfills 3 units of elective credit toward the earning of the following two University of Arizona certificates: Certificate in College Teaching and Certificate in Science Communication.

Time: Spring 2023, Wednesdays, 3:00-5:30pm
Place: Aero & Mech Engr, Rm S314

**Educational Testing Service Harold Gulliksen Psychometric Research Fellowship**
The Harold Gulliksen Psychometric Research fellowship provides funding for promising graduate students in psychometrics, or a related field, who are conducting innovative, applied research. If you’re selected, you’ll carry out your proposed dissertation research under the mentorship of your academic advisor and in consultation with their ETS mentors over the course of the funding. During the summer, selected fellows are required to participate in the Summer Internship Program in Research for Graduate Students, working under the guidance of an ETS mentor. During the subsequent academic year, fellows study at their universities and carry out research under the supervision of an academic mentor and in consultation with their ETS mentor. The goal of this program is to increase the number of well-trained scientists in educational assessment, psychometrics and statistics.

**Property and Environmental Research Center Fellowships in Montana**

PERC Graduate Fellowships offer the ideal opportunity for graduate and law students to research issues related to natural resources, innovation, property rights, and the environment. Graduate fellows spend three months at PERC over the summer in Bozeman, Montana, researching and writing a paper under the mentorship of a PERC Senior Fellow. Graduate Fellows have the opportunity to work in depth on a thesis or dissertation and fast track their research. This is a chance to receive feedback from experts in fields including economics, law, and environmental science. Graduate Fellows are expected to interact with other PERC scholars and fellows while in residence, and it is intended that the fellowship period be thought of as an opportunity to either establish or strengthen a continuing relationship with PERC. Office space is provided in a congenial, stimulating work environment in a locale of unparalleled natural beauty.

**Hodges Foundation for Philosophical Orientation Doctoral Dissertation Fellowships**

The Hodges Doctoral Dissertation Fellowships are designed to encourage and support original and significant studies exploring the complexities of human orientation. Orientation precedes everything else, all perceiving, thinking, and acting, and its conditions and structures may thus be explored from various disciplinary viewpoints and methodological approaches. The Hodges Foundation for Philosophical Orientation (HFPO) primarily supports innovative dissertations in the wider field of philosophical scholarship, but also outstanding projects in any academic field (in the humanities, the social sciences, as well as the natural sciences, including biology, psychology, sociology, or astrophysics) if they make significant contributions to the philosophy of orientation. Projects may involve, but are not limited to, philosophical reorientations in history and today; the structures of human orientation in space and time; memory studies and brain research; the economic, political, communicative, religious, or ethical dimensions of decision-making; global reorientations connected with the Anthropocene and the digital transformations of the world. The HFPO is especially committed to supporting courageous reorientations in philosophy and beyond.

NYU Journalism Matthew Power Literary Reporting Award

The Matthew Power Literary Reporting Award is a grant of $12,500 to support the work of a promising early-career nonfiction writer on a story that uncovers truths about the human condition. The award proceeds from the recognition that many important stories need to be reported from afar, and that publications do not always have the resources to send a writer where the story is. The money need not be used exclusively for travel, but we expect that most successful applications will include such expenses.

Society for the Advancement of Behavior Analysis (SABA) Sidney W. and Janet R. Bijou Grant

The Society for the Advancement of Behavior Analysis (SABA) welcomes proposals for research in child development from a behavior analytic perspective. This grant will be provided to support doctoral student research designed to incorporate behavioral principles to advance our understanding of human development. Developmental concepts could include chronological and developmental age, neurobiological and genetic factors associated with development, or the impact of developmental trajectories on adult behavior. While intervention research could be appropriate, the primary research questions (independent variables) must be related to developmental and behavior analytic principles. Examples are changes in reinforcer preference with age, effectiveness of verbal behavior interventions in children of differing developmental ages, the development of second languages or bilingualism, equivalence relations, delay discounting, neurobiological correlates or interventions, the role of epigenetic influences, or environment-gene-behavior interactions.

Society for the Study of Social Problems (SSSP) Racial/Ethnic Minority Graduate Fellowship

The Society for the Study of Social Problems (SSSP), in keeping with its philosophy of active engagement with social problems, participation in social problem solutions, and advancement of knowledge through study, service and critical analysis, established the Racial/Ethnic Minority Graduate Scholarship at its annual meeting in August 1993. At the 2017 Annual Meeting, the Board of Directors voted to change the scholarship to a fellowship. The purpose of the fellowship is: To identify and support developing minority scholars who exemplify and give fresh voice to the SSSP history and commitment to scholar activism; To give renewed energy and wider lenses to diversity in scholarship; To increase the pool of minority social and behavioral scientists; and To establish a formal commitment to diversity through support of two minority doctoral
students in the social and/or behavioral sciences inclusive of course work or dissertation research support who demonstrates a commitment, through his, her, or their scholarly examination, of any aspect of inequality, injustice, and oppression

**American Fisheries Society - Steven Berkeley Marine Conservation Fellowship**
This fellowship was created by American Fisheries Society (AFS) in 2007 to honor the memory of Steven Berkeley, a dedicated fisheries scientist with a passionate interest in integrating the fields of marine ecology, conservation biology, and fisheries science to improve fisheries management. Berkeley was a long-time member of AFS and a member of the first Board of Directors of the Fisheries Conservation Foundation. The fellowship comprises a competitively based $10,000 award to a graduate student actively engaged in thesis research relevant to marine conservation. Research topics may address any aspect of conservation; a focus on fisheries issues is not required.

**American Institute of Aeronautics and Astronautics Graduate Scholarships**
To help support promising future aerospace professionals, the American Institute of Aeronautics and Astronautics (AIAA) Foundation annually awards financial aid to undergraduate and graduate students in science or engineering programs related to aerospace. Our goal is to help attract top science and engineering students to aerospace field, to provide high-visibility recognition of these students and their work, to furnish financial assistance to aerospace students, and to assure the availability of the talented
professionals the aerospace industry will need in the years ahead. Through its annual graduate scholarship program, the AIAA Foundation presents awards to graduate students doing excellent research in the air and space sciences.

**American Society of Mechanical Engineers (ASME) Lakshmi Singh Early Career Leadership Award**

The American Society of Mechanical Engineers, under its Petroleum Division, invites applications for the Lakshmi Singh early-career leadership award. This recognizes early-career women engineers who have demonstrated leadership in, commitment to and continued service with the society. Applicants must be women who are members of the society. They must have received their undergraduate degree no more than 20 years prior to the award year. One criteria of the evaluation gives focus and consideration to underrepresented minority (URM).

**Arizona Space Grant Graduate Fellowship**

The UA/NASA Space Grant Program and nominating departments provide six graduate fellowships per year to exceptional graduate students interested in promoting the understanding of space-related research to the public and who are studying space sciences/engineering, public policy, earth sciences, science education, or global change-related fields. Space Grant fellows are required to complete an educational outreach project as part of their fellowship. They must be a graduate student at the University of Arizona studying a NASA STEM (science, technology, engineering, mathematics).

- **Citizenship**: U.S. citizen

Global Sustainable Electricity Partnership Scholarship
The Education for Sustainable Energy Development (ESED) scholarship program inspires the next generation of innovators and thinkers to create a sustainable future. Our scholars are exceptional students from developing countries studying in sustainable energy development. Today, the need for globally-oriented practitioners and researchers is growing rapidly. Our one-of-a-kind scholarship program fosters the next generation of energy, climate, and electricity sector specialists who will be prepared to tackle the challenges of the future.

- **Citizenship:** Applicants must be a citizen of a developing country/territory on the [List of official development aid recipients identified by the Development Co-operation Directorate (DAC) of the Organisation for Economic Co-operation and Development (OECD)].*

U.S. Air Force Research Lab - Repperger Research Internship Program
This 10-week educational internship program posthumously honors Dr. Daniel W. Repperger, who mentored many young people during his 35-year research career with the Air Force Research Laboratory (AFRL), by providing research opportunities for students to participate in research projects at one of the Air Force facilities under the mentorship of an Air Force scientist. Each scientist has been hand selected to mentor, because of their technical knowledge, experience, and willingness to help science and engineering students enhance their learning through participation in an actual Air Force research project.

- **Citizenship:** U.S. citizen
Postdoctoral Opportunities

**Air Force Science & Technology Fellowship Program**
The Air Force Science & Technology Fellowship Program offers nationally competitive fellowship awards to postdoctoral and senior scientists to perform collaborative research at U.S. Air Force research facilities across the country. Since 1966, the Air Force S&T Enterprise has hosted over 1,000 fellows under the NRC Research Associateship Programs and many of these researchers have gone on to successful careers in government laboratories. The Air Force Science & Technology Fellowship Program continues this tradition of providing high quality research opportunities with Air Force scientists and engineers at Air Force Research Laboratory, the Air Force Institute of Technology, and the U.S. Air Force Academy.

**Council of American Overseas Research Centers – National Endowment for Humanities Research Fellowship**
The CAORC - National Endowment for the Humanities Research Fellowship provides the opportunity for scholars to spend significant time in one country with an ORC as a research base. The fellowship supports advanced research in the humanities for US scholars who hold a PhD (and also foreign national scholars who have been resident in the US for at least three years). Approximately three awards will be granted, and fellowship stipends are $5,000 per month for four to six consecutive months. This program is funded by the National Endowment for the Humanities (NEH) under the Fellowship Programs at Independent Research Institutions (FPIRI). All applicants must hold a PhD.
- **Deadline:** January 19, 2023
- **Citizenship:** U.S. Citizens and foreign nationals who have resided in the US for at least 3 years

**Damon Runyon Fellowship Award**
The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention. Candidates must apply for the fellowship under the guidance of a Sponsor—a scientist (tenured, tenure-track or equivalent position) capable of providing mentorship to the Fellow. In addition to aiding in the planning, execution and supervision of the proposed research, the Sponsor’s role is to foster the development of the Fellow’s overall
knowledge, technical and analytical skills, and capacity for scientific inquiry. The Sponsor is also expected to assist the Fellow in attaining his/her career goals.

- **Citizenship:** Unrestricted
- **Deadline:** March 15, 2023

**De Duve Institute Post-Doctoral Program in Belgium**
The de Duve Institute is on the list of institutions recognized by the Belgian government to be eligible for tax-exempt prizes and subsidies. The Institute awards 1-year fellowships, which are renewable once, to young scientists who in principle have not obtained their PhD degree at a Belgian University and who wish to carry out their post-doctoral research within one of our research groups. Candidates must hold a PhD or MD degree, and must be in a situation of “international mobility”, i.e. they should in principle not have resided or carried out their main activity (work, studies, etc.) in Belgium for more than 12 months in the 3-year period before submission of their application for a de Duve Institute fellowship.

- **Citizenship:** Unspecified
- **Deadline:** March 15

**Institute Project on Decoloniality Postdoctoral Fellowships**
Applications are invited for postdoctoral bursaries from candidates in any area of the Arts, Humanities and Social Sciences. We would particularly welcome applications linked to the themes of the new Institute Project on Decoloniality (IPD’24) taking place at IASH from 2021 to 2024. This project invites scholars from around the world to visit Edinburgh and conduct research on the theme of decoloniality, broadly understood. We and our partners warmly encourage applications exploring issues including but not limited to: decolonising the curriculum; anticolonial and decolonial theory; neocolonialism; intellectuals in and from the Global South; intersectionality and multiple inequalities; decolonising gender and sexuality; race and racialisation; de-centering Western feminist knowledge production; Scotland’s role in the British Empire; reparations; the University of Edinburgh’s colonial legacy and alumni roles in the slave trade; and the histories of Edinburgh graduates and staff of colour. It is important to note that we still welcome applications on all topics and in all areas of the arts, humanities and social sciences to continue IASH’s traditional interdisciplinary work across the 12 CAHSS schools, alongside IPD’24.

**Intelligence Community Postdoctoral Research Fellowships**
The Intelligence Community (IC) Postdoctoral Research Fellowship Program (IC Postdoc Program) was established in 2000 to support unclassified basic research in areas of interest to the IC. In collaboration with Research Advisors, Postdocs develop
and submit technical research proposals that align with research opportunities proposed by the IC community. The research is conducted by the Postdocs while working in partnership with the Research Advisor, and collaborating with an advisor from the Intelligence Community (IC Advisor). Postdocs who have completed their Ph.D. within the past five years are invited to apply.

**L’Oréal USA for Women in Science Postdoctoral Fellowship**
The For Women in Science program was created out of a simple belief: the world needs science, and science needs women because women in science have the power to change the world. The L’Oréal USA For Women in Science fellowship program awards five women postdoctoral scientists annually with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. Candidates must have completed their PhD and have started in their postdoctoral research position by the application deadline.

**National Academies Research Associateship Program**
The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U.S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions. In these programs, prospective applicants select a research project or projects from among the large group of opportunities listed on this website. Prior to completing an application, prospective applicants should contact the proposed Research Adviser to assure that funding will be available if their application is recommended by NRC panels. Once mutual interest is established between a prospective applicant and a Research Adviser, an application is submitted through the NRC WebRap system.

**NIH National Library of Medicine Associate Fellowship for Librarians**
The National Library of Medicine Associate Fellowship is a one-year residency program for early and second career librarians within five years of graduation interested in advancing equitable and innovative futures for biomedical libraries. The fellowship combines curriculum and project work. This is a virtual fellowship hosted by the National Library of Medicine at the National Institutes of Health. The fellowship provides an annual stipend.
**Rice Academy Postdoctoral Fellowships**

The two-year Rice Academy Postdoctoral Fellowships are open to exceptional scholars who have recently earned the doctoral degree in any area and who want to pursue research with faculty at Rice University. Applications are particularly welcome from those who are interested in interdisciplinary approaches to scholarship. Applicants for the 2023 competition should have completed all requirements for the doctorate between September 1, 2020, and August 31, 2023. Open departments include engineering, interdisciplinary (applied physics and systems, synthetic, and physical biology), natural sciences, and social sciences.
