

ARE YOU A LOCAL ENGINEERING EMPLOYER?

Become a Mentor. Host a Site Visit. Shape the Future Workforce.

We invite Arizona engineering employers to partner with the ENGINE (Engineering Network for Graduate Students Industry Navigation & Exploration) Program, a high-impact, short-term professional development initiative for Master's and PhD engineering students.

Partnership opportunities include:

Mentoring Graduate Talent:

- Provide industry insight and discuss career pathways in engineering sectors

Hosting a Site Visit

- Showcase your facility, technology, and corporate culture.

Sponsor a Cohort

- Invest in professional development materials or networking luncheon.

Spring 2027

*8 week commitment, approximately 8-10 hours total (**Cohort 1** Jan 15-March 5 | **Cohort 2** March 12-April 30)

HOW DOES YOUR PARTNERSHIP IMPACT STUDENTS?

- Summer 2026 Cohort reported significant increases in confidence across career development, communication, leadership, and teamwork skill sets ($p < .001$),
- Understand workforce expectations
- Explore internship and employment pathways
- Expand access to professional networks

INTERESTED IN PARTNERING?

EMPLOYER PARTNER TESTIMONIALS

"Mentoring engineering graduate students through this program was one of the most fulfilling professional exercises I've participated in this year. Listening to their challenges in discovering the unknown and helping them translate their academic achievements into strong, industry-ready profiles was incredibly rewarding." - **Director of Engineering, Roche**

"Through mentoring and engagement with students, I have seen firsthand how the program helps future engineers build confidence, develop professional skills, and gain a clearer understanding of what it takes to succeed in industry. It is a valuable experience for both students and the employers." — **Leader, ASML**
