

# Sample University Fellows Nomination Form

This document is only a sample nomination form for reference purposes. All official UF nominations must be submitted through the [online nomination form](#).

Q1

Welcome! The Graduate College looks forward to receiving your University Fellow nomination. The nomination form consists of the three sections outlined below.

Nominee information

College and departmental support after Year 1

Departmental contact information

## Q2 Nominee Information

---

Q3

Please select the academic program the nominee is applying for from the drop-down menu below. Programs are listed in alphabetical order as found in the Graduate College Catalog and Program Descriptions list. Only eligible programs are listed.

Drop down selection box. To view eligible programs list, please see page 7.

---

Q4

Nominate your student for consideration in **only one** of the broad academic areas below. The area selection should be based on the best fit with your student's interest.

For example, an optical science student studying the influence of lasers on the immune system could be nominated to the Biological, Health, and Medical Sciences pool. Likewise, a nominee with an emphasis in computational linguistics could be submitted to the Humanities category because of the student's research focus.

Drop down selection box with following options:

1. Agricultural and Environmental Sciences
2. Arts
3. Biological, Health, and Medical Sciences
4. Business
5. Education
6. Engineering
7. Humanities
8. Physical Sciences, Mathematics, and Computer Science
9. Social Sciences

**Q15 Level of Financial Support after Year 1**

The University Fellows Award offers fully-funded support in year 1 of the nominee's studies, professional development funding in year 2, and other opportunities throughout a Fellow's time at the University of Arizona.

Colleges and programs that recruit a Fellow will be expected to commit support equal to or greater than what is provided in a 0.25 FTE Graduate Assistantship (stipend, healthcare, and 0.5 base graduate tuition coverage) for years 2 through 5, pending satisfactory academic performance and availability of funds. This support can be made in the form you see fit (tuition waivers, scholarships, assistantships, etc.) as long as it is - at minimum - equivalent to the support offered by a 0.25 FTE Graduate Assistantship. If a Fellow is awarded external funding, such as an NSF Graduate Research Fellowship, in the amount equal to or greater than a 0.25 FTE Graduate Assistantship, the commitment can be met by the external funding source.

The following questions seek to clarify what support will be provided to your nominee after year 1.
